

When I say ion give a fuck
I mean that yeah
Niggas chase fame n turn cluck
I done seen that yeah
Baby tryna get in my heart I ain't clean that yet
Niggas keep drawing me these ceilings
I ain't seen that yet

Niggas sniffed cash out me for I did that's some keen ass smell
Proper but optics on your shnozzle 4 it sneeze back red
One foot wheeze at stairs ain't relax barely
One look and 'he raps scarily's wee past heresy
Careless
Keep that energy
Breeze past enmity
Can't explain so feast at simile
We got plenty she
Want me ima need that 'pretty please'
Heed that
Low balance scavenge
Relapsing into scheme habits
Niggas will try to buy you with excitement you the king adder
Since 04 had problems following crowds like I'm steve jackson
These adages woulda earned a chief hat seasons back
Reaching for the mic I keep grasp we does that
Just added humanism to my newest neuro theory and I add a literally s
o you twitter niggas hear me
Then I add some similarly pigment niggas to the mix
Then add some gems to pendants half incentive to get rich
Half centered half absent sensibly I'm inconsistent
Since I been lifting the spliff is general consensus
I been inviting the shit I tighten my net ginger
Biding like a lizard
Lies on lies bely the price supplying life essentials
My quiet time resentful
Like
My minds like tyson's mid through a fight
N twice as bright as his tooth
And high as kites they try to tie a line to me and send zeus

Ion give a fuck
N I mean that yeah
Niggas chase fame n turn cluck
I done seen that yeah
Baby tryna get in my heart I ain't clean that yet
Niggas keep drawing me these ceilings
I ain't seen that yet at all
