MAVI

Yeah, yeah, yeah, yeah  
It's Mavi

They say I'm defying gravity  
Well really I'm defining gravity  
Helios nigga  
Breathing hope in and singing stalled niggas no different  
Create and destroy facts  
Playing the coy with rats  
Deploying to plow way past the loitering point  
I'm courting coitus accordingly but the fortitude fortress like  
Off a porter pint  
Proportion of disorder distorted  
I pour some more for my mourned  
I know they wish it was water  
I know it's fish up in the sea must've mean I'm anemone  
Still I'm blimping eventually  
Dots of Krillin, I'm grilling meat  
I ain't one for the frilly things  
But sepele woody grain and peeling paint would be really great  
I feel prison to sinning  
And baby you should pray for me  
But like with your face honey  
Y'all can't sit with gang  
Niggas wish for missing chains, stolen phony anyways  
Nigga I done pen and paged my way into some penetration  
Slid it in the game and then she came she said it's been some ages  
Body and my brain breaking chains, got some missing cables  
She just finished praying glossolalia, got me feeling gracious  
Go ahead and google glossolalia if you feel I'm cagey  
It ain't that important to the line, I just was feeling flagrant

No man-made sadism can claim the mayor  
You would think that they paying niggas to pay these niggas  
I came with Harriet, shotgun to save these niggas  
I came with Harriet, shotgun to save these niggas
