This is the story of how the sun and the moon came to live in the sky:

A very long time ago, all the people, the animals, the plants, and the sun, and the moon, and the water, and everything in the water

Lived together in one small place

It was very crowded

So, sun and moon decided to build a new house for themselves away from the others

It was a big house

Sun and moon had plenty of room now

So they invited their friends to come and visit

And their friends all came...

Except their best friend: water

Sun and moon were sad about this

And they went to talk to water
