

I will myself out of the bed  
Filling my consciousness  
Ingenuer with me lounge in the spread  
Fill up a pot  
I said I will  
I will  
Tea steeping and home banging my line  
Saying the payment got bigger  
Know you been taking your time make you some change  
I replied and I said I will  
I will  
Dash to class, the professor got mad sarcasm for smell of the g  
as I  
Ashed just to get here it's my last chance to submit the shit s  
o I will  
I will  
Living in nothing, living on edges I tasted two  
Near vacations bro say be careful, your place within perpetuity  
I will  
Hold the whole of the world in the holes of my cheeks  
Explosive sun and molten core of earth be holding my leash  
So the cold is not peace  
The code can't elude you you holding the key  
It's undisclosed to get you coursing through the folds undernea  
th  
Bro get cozy  
The globe is going cold when I leave  
Slopes get snowy when the sun goes self-enclosed  
Like Ali  
I'm the prettiest fighter  
Nitty gritty getter to in interlude length limericks  
I'm limning shit  
Sprinting into limbo limping grinning still  
I'ma be that nigga like a vitamin for skin & nails  
Mispronouncing shit I can't renounce the clique, I'm with 'em s  
till  
Remember the nights before I owned my life's recourse and Killa  
'd tell me  
I'm liking the writing, it's booking flights and kicking real d  
oors  
I know you excited we fighting wars you gotta kill for  
I said I will, bro  
Don't even trip
