

Human Mind

Mavis Staples

I dealed in love, baby
In good words, baby
From above
Ain't always easy to supply
But I ain't giving up, baby

Burning hillsides
Children dying by machines of war
And I know every tear that I've cried
Through the worst in my life
Was love in full supply

God bless the human mind
Who would dream the sweet design?
Even in these days I find
This far down the line
I find good in it sometimes

God bless the human mind
Find a reason, Lord
To keep on trying
With every tear you cry
You find good in it sometimes

I dealed in loss, daddy
I am the last, daddy
Last of us
Ain't always easy to believe
I miss my family, daddy

Spinning B-sides
Singing "By and By"
Will mean once more and I
Know everyone can still fly
The best in my life
Is love in full supply

God bless the human mind
Who would dream the sweet design?
Even in these days I find
This far down the line
I find good in us sometimes

God bless the human mind
Find a reason, Lord
To keep on trying
With every tear you've cried
You find good in us sometimes
