Lift your legs up, flick the cover off, she suck it with the rubber off
Buttersoft leather in the seat of Porsche
That was the spaceship, this is the flying saucer
Flosser, bit of caution, this for fucking with my life like you love me
You just wanna fuck me (Big Mike)
You just wanna, treat me like the rest of your bitches
And I'm a diva, and I drive a Beamer, me too (Me too bitch)
She wanna fuck my bell, and every time this bitch I speak with a tongue I me

And all I need is a bottle of crude

Fuck these other hoes, only death could bring us apart
For the love of my baby dog, I'll put in work
And if a lil nigga violate, he getting put in the dirt
And ain't shit sweet cause you see her up in a skirt
She's in them 22 pearls, man, lit you up in the purse
And she quit the last man, can have it
My baby tossed a ratchet, she don't play when it come to the captains
Not concerned with rocks and carats, my lady's not your average
She prefer hand Glocks that's Maverick
But she also look good in Chanel and Fendi
She smoke blunts and sip coke mixed with Henny
She'll take the chic hate me, and get me on they side
