Max B

I love my bitches I need 'em I gotta have 'em
After I hit 'em I got 'em saying
Max can I roll with you?
I love my bitches the ones that play they position
After I hit 'em they always saying
Jimmy can I roll with you?
I love my bitches I need 'em I gotta have 'em
After I hit 'em I got 'em saying
Bundles can I roll with you?
I love my bitches the ones that play they position
After I hit 'em they always saying
Baby can I go with you?

They say [?]
Living a triple life and I'm missing this fast life
It's hard coping with the lies
So I'm rollin' in the ride, money on my mind
No one to sell my weed got me smokin' getting high
Hot as summer in July, runnin' through her mind
Livin' on G4's havin' fun up in the sky
Spend a hundred on a ride
Not because I want it
Just because I'm bored of motherfuckers so I'm stuntin'
I got this bitch up in my passenger seat
We gettin' faded while I pass her the weed (take that, take that)
Dippin' through traffic while I'm blasting the beats
Keepin' an eye out for the passing police (squalay!)
And if they pull us say you met me in the club
Your mama don't wana hear you arrested with a thug (Jones!)
[?] Night life got her coming
So I fucked her on the hood while the engine running

I love my bitches I need 'em I gotta have 'em
After I hit 'em I got 'em saying
Max can I roll with you?
I love my bitches the ones that play they position
After I hit 'em they always saying
Jimmy can I roll with you?
I love my bitches I need 'em I gotta have 'em
After I hit 'em I got 'em saying
Bundles can I roll with you?
I love my bitches the ones that play they position
After I hit 'em they always saying
Baby can I go with you?

She was only 21
A bad bitch that came in my life, then left it just fast as the money come
Baby girl was 5'6 with thighs kinda thick
All I did was used to fill her behind full of dick
Ass in the air, face's on the bed
Started tickling the balls and playing with the head, yea
I gotta tell you this chick was top of the line
Had me screamin' to all my niggas she rightfully mine
But, not Bigavelli I'm fronting with the [?]
I get in they head, I tell you I'm somethin' like a pimp
She don't be fucking with you cause you're somethin' like a wimp
We in the G550's you stuntin' in a blimp

Where you going nigga chill, baby just let me be
I'm a nigga that's getting money so let me run the streets
So put your dinner on the stove
And get your ass in the kitchen, you can't go (nope)

I love my bitches I need 'em I gotta have 'em
After I hit 'em I got 'em saying
Max can I roll with you?
I love my bitches the ones that play they position
After I hit 'em they always saying
Jimmy can I roll with you?
I love my bitches I need 'em I gotta have 'em
After I hit 'em I got 'em saying

Yea we fuck with them Birds

Fresh off the curb with blue bloods jeans, and my tee reeks

See I rep the Rock you know next to Queens
And you a queen when you next to a king
You must be new to the scene
Leave the lames we could put it behind us

No need for the booth we could put it behind us
Now the engine in the trunk, the [?] behind us, let's roll
