[?]

Nigga we believe just lead the way

You, just, like them niggas I dealt with they never change, they never change

I waited outside for my niggas in the rain and they never came, they never came

We was raised in a house full of fiends oh baby I seen better days, better days

I'm a always be me, I'm a always be Ram baby, I never change I never change

Never change [?]

My car washed in the rain

My chain too much to even explain

Sleepin' on the plane

[?]

We pull up and they open doors

Pullin' out weed they never smoked before

Haters watch how they approach us

This what happens when you turn players into coaches

BONG snappin' stayin' focused

Always was the best rappers

Eyes stayed the lowest, never clout chased waited on our moment

Niggas might doubt but the situations

We made it out of, make it so respect you gotta give

Sometimes shit ain't always how it appears

So keep your friends near, enemies closer

Never move off emotion, rollin' bomb but the shit ain't explosive

I'm talkin' KK joints and mimosas, Mcqueen shots 'til we throw up

(Gang)

Wouldn't splurge on a budget, get these millions and make a few

At night I would close my eyes, each time I would think of you

Hush couldn't tell me nothing, fuck till you felt me cumming

Kissing and licking nipples, bust in ya belly button

Team up to get me loops beamer 850 coupes
