

Slow Down

Max B

Roll another one
Light another big
Pour me another glass
Call up another bitch
Whole 'nother stratosphere
Shit a catastrophe
When I fuck she look back at me
Max that dick put it back in there
Charter the fucking Jet
Trips out to California
It's cheaper to keep her
Don't hit that bitch with no alimony
Bigga's a mega don
Diamond and leather on
Niggas is a Nefertiti
Harlem's a Lebanon
Slow down baby yeah
Go down baby
Got a fight for my lovin
Like a show down baby
Peep the wrist it's a 100 geez
My niggas be pumping keys
Investing in drug money
In various companies
Them bitches they barely ate it
Screaming how dare he is
My wife always tell me
We got to keep up appearances
Shit started eating clean
Plenty calisthenics
She leaking from the beaten
Call up the paramedics

Yeah
Damn baby
(Take your time)
You better slow it down
(Slow your ass down)
Roll up a piece and blow it down
(Yeah 55)
Baby it's going down

Ghetto niggas turn superstars
When we step up inside the club
The bitches know who we are
Diamonds and finer silk
Tailored and plenty Lennon
I'll commit suicide
Before I commit to women
Still on the streets
Caught a mill on the piece
Got an arm full of ice
Only charge em a slice
Taking care of her mother
She live in fear of our brother
Fuck with various lovers
Don't care if they wear a rubber

(They don't care)
Live a life full of violence
Every night hear the sirens
The doctor told her she pregnant
She contracted the virus
But that don't stop us she still rip
Still in the club they compliment
Her with drinks motherfuckers
They'll still tip
Regina was tainted
(Tainted)
Tonight I was famous
I know some bitches that
Love you they want you
To get acquainted
I know the ways of the world
It don't take long to get acclimated
Sign up for triple play
Go get your phone and activate it

Yeah
Damn baby
(Take your time)
You better slow it down
(Slow your ass down)
Roll up a piece and blow it down
(Yeah 55)
Baby it's going down
