Ego

Max Barskih (Макс Барских)

I'll do it for your ego, I will be small for you
Now what you wanna do?
As a constructor "Lego"
I'll change my look for you, what you prefer? Choose

As a fucking robot, always beside
But your access' denied for me
I'm your perfect lover, waiting for sex
But you're standing just next to me

I'm dying of your love, I will kindle your love
I will make you feel love, till the rest of days
I'm dying of your love, I will kindle your love
I will make you feel love, will receive the grace

Stupid empty words, scratch them all
They don't break the walls, walls, walls
Penetrating wind that you can't hide
Blowing in my mind, mind, mind

I'm dying of your love, I will kindle your love
I will make you feel love, till the rest of days
I'm dying of your love, I will kindle your love
I will make you feel love, will receive the grace

It's hard when you're near and when you're leaving away
I want to disappear and erase my name
You still pass me by, unnoticed – my love
Cut me with your steel knife, it won't take so long

Cigarettes, alcohol, drugs and hundred missing calls
I'm not weak, I'm a man, fell in love again
I'm young, I'm a fool, I don't live following rules
When I fall, I get up, I will never stop

I'm dying of your love, I will kindle your love
I will make you feel love, till the rest of days
I'm dying of your love, I will kindle your love
I will make you feel love, will receive the grace

I'm dying of your love, I will kindle your love
I will make you feel love, till the rest of days
I'm dying of your love, I will kindle your love
I will make you feel love, will receive the grace

I'll do it for your ego, I'll do it for your ego
I said I'll do it for your ego, I'll do it for your ego
And you know that
