

Hot Girl

Max Barskih (Макс Барских)

Just wanna get love
Sitting there - enough!
I'm tired, I want some fun
'Cause one thing I know
When I take the risk, I'll go
I'll take my car and I will so so far

Hey ladies, wake up
The night will never stop
You know what I want, just, you feel me?

I see you, I'm asking, "Where you going?"
I like you; baby you will know it

Girl, girl, you will be my part
And I want, want
Stay just how you are
And I will get you, will get you
And I will never stop
Get naked, you'll make it
I'd say you're really hot

No one knows like I do
About girls, I told you
I know how to make things right
"We wanna go with you tonight!"

Just wanna get love
The night club's my job
My free time - I'll spend with you
So get in my car
I'll show you what I've got
And you'll be satisfied
'Cause I can do it right

Don't try to pretend that you don't wanna do it
You know what I want, just, you feel me?

'Cause one thing is in my head
Do you like it?
Don't answer; baby you will know it

Girl, girl, you will be my part
And I want, want
Stay just how you are
And I will get you, will get you
And I will never stop
Get naked, you'll make it
I'd say you're really hot
