

Just Fly

Max Barskih (Макс Барских)

Baby, baby, don't make things complicated
Treat life like a celebration
Get close to the sun
Lay your head on the clouds

Find some time, take a trip you will never forget
And be gone with the wind, letting go of your plans
Got the world at your feet and no time to regret
Keep your head up high

Fly baby, fly
Up to the heavens
Fly baby, fly
Above the weather
Fly with me, fly
I can take you to the places you wanna go
Fly baby, fly
Take your vacation
Fly baby, fly
Good times are waiting
Fly with me, fly
Fly with me, fly
Better together
Baby, are you up for the ride?

Airplane mode the phone
We got a lot to see
Now put your seatbelt on
And put your trust in me
I'll be your travel guide
Lay back, enjoy the ride
I know you've been through this before

Giant cities looking small
Going higher and higher
I can take you through the storm
And fulfill your desires
Can you believe that everything is possible?
Reach out for the sky

Fly baby, fly
Up to the heavens
Fly baby, fly
Above the weather
Fly with me, fly
I can take you to the places you wanna go
Fly baby, fly
Take your vacation
Fly baby, fly
Good times are waiting
Fly with me, fly
Fly with me, fly
Better together
Baby, are you up for the ride?

Oh, fly with me up to the heavens
Oh, fly with me up to the heavens

Oh, fly with me up to the sky (To the sky)
I wanna see you

Fly baby, fly
Up to the heavens
Fly baby, fly
Above the weather
Fly with me, fly
I can take you to the places you wanna go
Fly baby, fly
Take your vacation
Fly baby, fly
Good times are waiting
Fly with me, fly
Fly with me, fly
Better together
Baby, are you up for the ride?
