

# Night

Max Barskikh (Макс Барских)

Turn me on, cause it's coming - the night time  
This beat makes me feel like insane  
Moving on let's go to the nightlife  
To have fun, to have fun

Two of us, and we don't need no others  
Two of us, and this world will stop for the night  
We'll light this night for each other  
And we will burn, and we will burn

Just gimme the-

Tonight, my heart is like on fire  
Night, it's time to make it right  
I can take you so damn higher  
Just give me the night, gimme the night, gimme the night, gimme the night

Let's dance, cause we're in the right place  
Clothes are all over the floor  
So hot and there is not enough space  
I want more, you want more

Tonight, my heart is like on fire  
Night, it's time to make it right  
I can take you so damn higher  
Just give me the night, gimme the night, gimme the night, gimme the night

Just gimme the night...

We lay down under the moon  
The Black Sea reflects the stars  
Daylight is coming soon  
So let's take away the night

Just gimme the-

Feel the beat, feel the beat, feel the beat  
Rocking, don't stop it  
Feel the beat, feel the beat, feel the beat  
Rocking, don't stop it

Tonight, my heart is like on fire  
Night, it's time to make it right  
I can take you so damn higher  
Just give me the night, gimme the night, gimme the night

Tonight, my heart is like on fire  
Night, it's time to make it right  
I can take you so damn higher  
Just give me the night, gimme the night, gimme the night, gimme the night
