

Don't Let Me Down

MAX CHANGMIN

We've been watching, we've been waiting
Waiting for the tide to turn
Waiting for the calm after the storm
Finding new reasons for living
Staying focused on our goal
With the fire of hope to keep us warm

So I pray, so I pray
As the night turns to a brighter day

Don't let me down, let me down, let me down
Don't let me down, let me down
Don't let me down, let me down, let me down
Let's follow the light into the future

Changing faces, changing places
I was young and so naive
Trying to see which way the wind would blow
Now I'm wiser and I've grown, got so much live for
Trust me you can stand upon my shoulders

So I pray, so I pray
As the night turns to a brighter day

Don't let me down, let me down, let me down
Don't let me down, let me down
Don't let me down, let me down, let me down
Let's follow the light into the future

So I pray, so I pray
That our love will always lead the way

Don't let me down, let me down, let me down
Don't let me down, let me down
Don't let me down, let me down, let me down
Let's follow the light into the future
