MAX CHANGMIN

Atokata naku kieru no? everything
Awa no you ni omoide mo...
Uso da it's over kimi wa inainda
Nukegara no heya to kokoro

Kawazoi no sakura no hana ga kirei de
Ame no ato mimuki mo sarenai mitai de

I'm over goodbye, over the tears
Ima wa mada namida afureru kedo
Over the lies, over the fears
Kono mama aruki tsuzukete yukou
But I'll never be, over you

Komorebi ni yume no naka ni
Kimi no sugata ga aru kara

Kono mama aruki tsuzukete yukou
But I'll never be, over you

But I'll never be, over you
Over you

There are no traces left, has everything disappeared?
Even memories that seemed like bubbles
It was a lie, it's over, you are not here
My room and heart feel like empty shells

They're beautiful, the cherry blossoms on the riverside
It seems to me they are ignoring the sound of falling rain

I'm over goodbye, over the tears
Even though tears are still overflowing now
Over the lies, over the fears
Like this, I'm going to keep walking
But I'll never be over you

In the sun rays filtering through trees, inside my dreams
Your shape is here
So on my own, I'll go on living
The moon can never really lose the stars

I miss you but I can't meet you, and I cry
"So such a day has come", I don't even have such thoughts

I'm over goodbye, over the tears
Even though tears are still overflowing now
Over the lies, over the fears
Like this, I'm going to keep walking
But I'll never be over you

I'll be loving you forever, I'll change but not forget
The 'you' in my memories is still laughing

I'm over goodbye, over the tears
Even though tears are still overflowing now
Over the lies, over the fears
Like this, I'm going to keep walking
But I'll never be over you
Over you
