Only a coincidence, for sure it's love
Even if we tumbled to each other and we exchanged kisses
It is still intensely sad

Rock with you
The feelings are in confusion
Love with you
Two people bursting with love

Just with you, you, you, you

Only a coincidence, for sure it's love
Even if we tumbled to each other and we exchanged kisses
It is still intensely sad

Being extremely shy, do not look down
I am staring at a heart that seems to be broken
Although I like it very much it is (also) painful

Rock with you
I want to know everything about you with a pure heart
Love with you
An impatient desire for a miracle
Just with you, you, you, you

Come closer
Unfold the naked soul
For several sides, for many times, for many chapters

Rock with you
Rock with you
Rock with you

It goes on forever
I just feel hurt inside
I want to just be in side of you, of you

Rock with you
There's no need for words
Love with you
Deeply to all of you

Rock with you
The feelings are in confusion
Love with you
Two people bursting with love
Just with you, you, you, you

Rock with you
I want to know everything about you with a pure heart
Love with you
An impatient desire for a miracle
Just with you, you, you, you

Don't be shy no more, don't look down
I am staring at a heart that seems to be broken
