

Let Me Down Easy

Max Frost

It's cold, the lake is frozen
She floats across at night
No brace then to be broken
I know who heart's not mine

So if you gonna let me down
Let me down easy
And if you gonna let me down
Let me know, let me know right now
And if you gonna let me down
Let me down easy
If you gonna let me down
Let me know, let me know right now

Before the words are spoken
I know what's on your mind
So now it's in the open
Don't wanna know, don't wanna know why

'Cause if you gonna let me down
Let me down easy
And if you gonna let me down
Let me know, let me know right now
And if you gonna let me down
Then let me down easy
If you gonna let me down
Let me know

Because I have to know [x5]

If you gonna let me down
Let me down easy
If you gonna let me down
Let me know, let me know right now
And if you gonna let me down
Then let me down easy
If you gonna let me down
Let me know
Let me know right now
