

Money Problems

Max Frost

I got money prob, I got money problems

My car's a rental, not presidential
I got no diamonds on the doors of my house
Above my level, you're something special
And I know I gotta get you somehow, yeah

No sterling silver, no greenback fountains glittering down
I'm waiting on my day to come
No champagne dinners, 'cause I can't pay the bill when we're out

I got nothin' in my pockets
Tell me, baby, do you judge me? (Yeah)
(I got money problems, I got money problems)
I been thinkin' way too often
Maybe only gold is flawless
(I got money problems, I got money problems)

Hey, whether you started from the bottom
Or you're comin' from the top of the chain
You're either lookin' for a way to get it
Or a way to cover your safe
But don't sweat it when they take their percentage
'Cause what goes, baby, comes around, yeah

No sterling silver, no greenback fountains glittering down
I'm waiting on my day to come
No champagne dinners, 'cause I can't pay the bill when we're out (No, no)

I got nothin' in my pockets
Tell me, baby, do you judge me? (Yeah)
(I got money problems, I got money problems)
I been thinkin' way too often
Maybe only gold is flawless
(I got money problems, I got money problems)

Benjamin's in Vegas, fallin' from the sky
Where you been? Your face, it's always on my mind
I can't pretend, I dream of when I get some ends
And all my friends are screamin'
Money, money, money (Money, money, money)

No sterling silver, no greenback fountains glittering down
I'm waiting on my day to come
No champagne dinners, 'cause I can't pay the bill when we're out

I got nothin' in my pockets
Tell me, baby, do you judge me?
(I got money problems, I got money problems)
I been thinkin' way too often
Maybe only gold is flawless
(I got money problems, I got money problems)

I got nothin' in my pockets
Tell me, baby, do you judge me?
(I got money problems, I got money problems)
I been thinkin' way too often

Maybe only gold is flawless
(I got money problems, I got money problems)
