

No Way

Max & Harvey

You didn't like the way I said it to your face
That you were never the one
How could I stick around when you always shoot me down
Yeah, you just love to control

She said when you gonna man up, man up
Like you don't think that I can
But I'm gonna stand up, stand up
And you ain't part of that plan
I don't like to be that guy, yeah
But I wish you all the best
So I'm gonna man up, man up
Yeah

You left me in a mess
But now it's off my chest
You put me through this hell
And I ain't going back
I'm with somebody else
I'll think about myself
You put me through this hell
And I ain't never, ever going back

Never, ever going back
Never, ever

She got me feeling like you never did
Blew you out of the water
Never really knew I wanted it
It's so much weight on my shoulders
Yeah, she knows how to make me brand new
Never really knew I wanted it
Now never, ever

You left me in a mess
But now it's off my chest
You put me through this hell
And I ain't going back
I'm with somebody else
I'll think about myself
You put me through this hell
And I ain't never, ever going back

No way, no way
No way, no way
Never, ever going back
No way, no way
No way, no way
Never, ever

It was all lookin' so grey
But I think I'm doing okay
As long as you're with me

You left me in a mess
But now it's off my chest
You put me through this hell

And I ain't going back
I'm with somebody else
I'll think about myself
You put me through this hell
And I ain't never, ever going back

No way, no way
Never going back
No way, no way
I'm never, ever going back
No way, no way
Never going back
No way, no way
I'm never, ever
