

Stranger

Max & Harvey

Forgotten all that I know
Those years of holding you close
Damn that feels like a quick forever
Where'd all my confidence go?
I fall apart at, "Hello"
Whenever I meet someone, that's better

Been 6 months without you
I loved and I cursed you
And I've been moving on
Though that it feels wrong
Cried more than I want to
But hey, what can I do
If finding me the one
Is taking me too long?

So, tonight I wanna fall in love
Fall in love with a stranger
And if they go break my heart
Then I'll just fix it later
I'm only here for the rush
I don't need no disclaimer
Tonight I wanna fall in love
Fall in love with a stranger

Fall in love with a stranger
Fall in love with a stranger

Why's it so hard to forget
Your hands runnin' down my neck
Someone tell me that this gets better
You're moving on at a speed
That just don't feel right to me
Swear that I'll feel like this forever

Been 6 months without you
I loved and I cursed you
And I've been moving on
Though that it feels wrong
Cried more than I want to
But hey, what can I do
If finding me the one
Is taking me too long?

So, tonight I wanna fall in love
Fall in love with a stranger
And if they go break my heart
Then I'll just fix it later
I'm only here for the rush
I don't need no disclaimer
Tonight I wanna fall in love
Fall in love with a stranger

Fall in love with a stranger
Fall in love with a stranger

Who it is? No I don't know

Who it is? No I don't know
Who it is? No I don't know
No I don't know

Tonight I wanna fall in love
Fall in love with a stranger
And if they go break my heart
Then I'll just fix it later
I'm only here for the rush
I don't need no disclaimer
Tonight I wanna fall in love
Fall in love with a stranger

Who it is? No I don't know
Tonight I wanna fall in love
Who it is? No I don't know
No I don't know
Fall in love with a stranger
