

# All Along The Way

Max Jury

All along the way  
I was in a dream  
You and me  
Out beside the lake when we were young  
Thoughts that hide within  
The blood beneath our skin  
Doesn't stop  
It decides just when the love is done love is done

All along the way all along the way  
I was in a dream  
All along the way all along the way  
I was in a dream

All along the way  
I was in a dream  
Things I've seen  
I would see them all again with you  
Thoughts that hide within  
The blood beneath our skin  
Caught between  
The comfort and the thought of what could be  
What could be

All along the way all along the way  
I was in a dream  
All along the way all along the way  
I was in a dream  
All along the way all along the way  
I was in a dream  
All along the way all along the way  
I was in a dream  
All along the way all along the way  
I was in a dream
