

I Won't Go

Max Jury

I was all alone waiting for your love to grow
Waiting for your love to grow
Sometimes I can't let it go

All I want to be is wrapped up in your loving arms
Keeping me away from harm
But you know time can move so slow

Where you been lately got to stop this fooling around
You can rely on me baby when it all comes tumbling down

I won't go I won't go running
I've been down that road before
I don't know I don't know nothing
But I want you that's for sure

I was all alone sitting on the balcony
Thought I heard you on the street
It was just the radio
Playing tricks on me waiting for the day to come
Keep waiting for the day to come
But you know time it moves so slow

Where you been lately got to stop this fooling around
You can rely on me baby if it all comes tumbling down

I won't go I won't go running
I've been down that road before
I don't know I don't know nothing
But I want you that's for sure

I won't go I won't go running
I've been down that road before
I don't know I don't know nothing
But I want you that's for sure
