

# Is There A Light?

Max Jury

True love  
The monkey on your back  
New blood  
Is running down the tracks  
Went to the river but the river was dry  
It's been that way your whole life  
Tried to deliver but you're never on time  
It's been that way your whole life  
It's been that way your whole life

Is there a light at the end of the road  
Is there a light at the end of the road  
Hold on don't you believe me  
Go on say that you need it  
How can you take it when you don't even know  
If there's a light at the end of the road

Too much  
It's so hard to hide  
What you want  
From what you keep inside

Went to the tower but the tower was gone  
It's been that way for so long  
Wrote down your troubles but you wrote them all wrong  
It's been that way for so long  
It's been that way for so long

Is there a light at the end of the road  
Is there a light at the end of the road  
Hold on don't you believe me  
Go on say that you need it  
How can you take it when you don't even know  
If there's a light at the end of the road

So you're dreaming in a different world  
You want to give it all away away away away away  
You hear the echo of a long goodbye  
You hear it calling  
You hear it calling  
You hear it calling your name

Is there a light at the end of the road  
Is there a light at the end of the road  
Hold on don't you believe me  
Go on say that you need it  
Is there a light at the end of the road  
Is there a light at the end of the road  
Hold on don't you believe it  
Go on say that you need it  
How can you take it when you don't even know  
If there's a light at the end of the road
