

## LA Rain

Max Jury

You were my satellite  
Can't put you down easy  
We let it slide to love or fight  
It's never been easy

I need a holiday, I gotta get away  
I wanna drink until I sink and then I can't see straight  
The paranoia runs deep as the setting sun  
I need a line a sign or something just to make me...

Run, I lost track of time  
Was someone else on your mind?  
When you're caught in a thought  
You're here but you're not and I miss you  
Did I just wash away?  
Did I just wash away in the L.A. rain?

You were my ride or die  
Can't put you down easy  
We let it slide to fire and ice  
You know it's never been easy, no no

I need a holiday, I gotta get away  
I wanna drink until I sink and then I can't see straight  
The paranoia runs deep as the setting sun  
I need a line a sign or something just to make me...

Run, I lost track of time  
Was someone else on your mind?  
When you're caught in a thought  
You're here but you're not and I miss you  
Did I just wash away?  
Did I just wash away?  
Did I just wash away in the L.A. rain?  
In the L.A. rain
