

Princess

Max Jury

Oh, my little princess
Mama's popping pills on christmas day
I know it hurts
Oh, my Cinderella
You're gonna get away from here someday
Just hang on
Just hang on

And I wish I could be
Strong enough to come
Pick you up and take you away from him
Tragic life you've lived still haunting in my head
Don't ever for a second, think your guilty

Oh, my little princess
Mama's popping pills on christmas day
I know it hurts
Oh, my Cinderella
You're gonna get away from here someday
Just hang on
Just hang on

How do I believe in God
You cry every night
And go to bed with all your prayers unanswered
A black and rising past
Is catching up real fast
And I can barely use the higher power

Oh, my little princess
Mama's popping pills on christmas day
I know it hurts
Oh, my Cinderella
You're gonna get away from here someday
Just hang on
Just hang on

Oh, my little princess
Mama's popping pills on christmas day
I know it hurts
Oh, my Cinderella
You're gonna get away from here someday
Just hang on
Just hang on
