

# Bury Me In My Hometown

Max McNown

Bury me in my hometown  
Let the world close around my final days  
Finish out the race where it started in a haze  
In the place that I was raised, lay me back down

I flew around the country, been outside the USA  
They were right when they would say "No place like home"  
But I kept on testing limits, where I'd been and where I'd break  
All the friends that I would make, they'll leave behind  
The only place I wanna be at closing time

So bury me in my hometown  
Let the world close around my final days  
Finish out the race where it started in a haze  
In the place that I was raised, lay me back down

Let me watch my final sunset in the land that I love most  
Holding all my loved ones close, I'll walk on through

So bury me in my hometown  
Let the world close around my final days
