

Turned Into Missing You

Max McNown

You haven't crossed my mind in a month or so
And you probably moved on now but I'll never know
I swear I left it right where it was
Guess I wasn't driving fast enough
Cuz it caught up

Turned on the radio and it was our song
Shoulda turned it off, but I just sang along
I got turned around in that setting sun
Came back to and knew where I was
Turned down haverhill drive just like we used to
And it turned into missing you

I see you smiling there in the front seat
Trying not to laugh at me for the way I sing
The wrong words to three little birds
Now we're on the front porch and you're leaning in
Coming back for more on an all night high
Off a midnight kiss how did I get here
After all I did was

Turn on the radio and it was our song
Shoulda turned it off, but I just sang along
I got turned around in that setting sun
Came back to and knew where I was
Turned down haverhill drive just like we used to
And it turned into missing you

I swear I left it right where it was
Guess I wasn't driving fast enough
Cuz it caught up

Turned on the radio and it was our song
Shoulda turned it off, but I just sang along
I got turned around in that setting sun
Came back to and knew where I was
Turned down haverhill drive just like we used to
And it turned into missing you
