

Circles

MAX

Wiping off your tears on your sleeve
Telling me to take a step back
Reaching out ya hand with my keys in it
Don't tell me it's over
It's not over

Baby
We've fixed this before
Drives you crazy
I'm sorry

We keep running in circles
I hate that I hurt you
We still have a heartbeat
Don't give up on me
Say a lot of things we don't mean
We can start again baby don't leave
Just another one of our cycles

Here we are again in the rain
Bout to throw your ring on the track
Right under the very same train
Where I told you I loved you
So Don't tell me it's over

Baby
We've fixed this before
Drives you crazy
I'm sorry

We keep running in circles
I hate that I hurt you
We still have a heartbeat
Don't give up on me
Say a lot of things we don't mean
We can start again baby don't leave
Just another one of our cycles

We'll come back around
We'll come back around
We'll come back around
We'll come back around
End of the day always the same oh
We'll come back around
We'll come back around

We keep running in circles
I hate that I hurt you
We still have a heartbeat
Don't give up on me
Say a lot of things we don't mean
We can start again baby don't leave
Just another one of our cycles
