

KEEP IT CHILL

MAX

One, two
Check it
Ooh-ooh
Ooh
Ooh-ooh
Listen

Little mama got sex appeal
Just a little bit of attitude
Way you walkin' in them high heels
Where you headin' to? (Where you goin'?)

Baby, you've been stuck in your crib (Hey)
You should come on over tonight (Huh)
Thinkin' you might like how I live (Hey)
Baby, you can stay for a while

Can we just keep it chill?
Can we just keep it chill?
Can we just (Can we? Can we? Can we?) keep it chill? (Can we keep it chill)
We don't have, have to make it to the party
We can just keep it chill
Can we? Can we? Can we?
Can we keep it chill?
Can we? Can we? Can we? (Mm)
Can we keep it chill? (Yeah)

Put your favorite movie on
Or maybe we could make one (Yeah)
Little of bit of give, little take somethin'
And we can keep it goin' to the same song

Baby, you've been stuck in your crib (Yeah, yeah, hey)
You should come on over tonight (Ooh, come on over)
Thinkin' you might like how I live (Yeah, yeah)
Baby, you can stay for a while

Can we just keep it chill?
Can we just keep it chill?
Can we just (Can we? Can we? Can we?) keep it chill? (Can we keep it chill)
We don't have, have to make it to the party
We can just keep it chill

It's a different type of stimulation
You're my favorite type of conversation
The way your body talkin' like nobody else
Oh-oh, ooh-whoa, oh-oh, oh-oh

Can we? Can we? Can we? (Can we?)
Can we keep it chill? (Just keep it chill)
Can we? Can we? Can we keep it chill?
Can we keep it chill? (Keep)
Can we? Can we? Can we keep it chill?
Can we keep it chill?
Can we just (Can we? Can we? Can we?) keep it chill? (Can we keep it chill)
Can we just (Can we? Can we? Can we?) keep it chill? (Can we keep it chill)
We don't have, have to make it to the party

We can just keep it chill
