

Last One Standing

MAX

Well I could hear you call my name
If I were miles away come running
When every other light goes out to shine for you's my specialty
Yes I'd go to leaps and bounds
Don't care how cliché that sounds
No, I'll never let you fall and hit the ground

So sign me up
And I swear I'll be the person that'll pick you up
Just count on me anytime
And if all your walls break down
I'll be the last one standing
Just call me up
'Cause if you need a friend tonight
I'll be up if you ever need someone to cry on
And if all your walls break down
I'll be the last one standing

Now if you're singing in the rain
Well I'd be right there with you dancing
And if you need a harmony on the track
You know I got you back, I got your back, yeah
'Cause you know I'd be your friend
Even if it's not the trend, no
You know I'm here for you
Through and through, that's the truth
I got you till the end

So sign me up
And I swear I'll be the person that'll pick you up
Just count on me anytime
And if all your walls break down
I'll be the last one standing
Just call me up
'Cause if you need a friend tonight
I'll be up if you ever need someone to cry on
And if all your walls break down
I'll be the last one standing

You know I'll be the last one standing
So sign me up...
I swear I'll be the first in line
Count on me anytime
And if all your walls break down
I'll be the last one standing
