

## Smile

MAX

I remember Burt's Bees covered lips  
With a taste of peanut butter on her tongue, yeah yeah  
I remember the way she moved her hips  
And the feelings that I had when we were so young

Now I'm older but the feeling's still the same  
Can't help but smile when I hear her name  
I still wonder if it's just a rumor  
That this kinda thing don't happen more than once or twice, no

I take out my heart and give you a slice  
Give passion a chance, save some room for romance  
And smile  
Just smile

And I remember when we were together  
Hoping these times would last forever  
And I remember you and I looking at each other wondering why

Laughing about Barbies and elves trapped in the city, no  
Got no makeup on but you still look so damn pretty  
And I guess you could say I'm thinking bout you every day  
And I'm smiling, smiling girl, I'm smiling, I'm smiling girl  
I'm smiling baby, smiling, smiling, I'm smiling
