

STRINGS

MAX

I hear strings play
Every time you look my way
Don't you know that's what you do?
Feels like ooh
Make my heart beat
Double time when you're on me
Don't you know that's what you do?
What you do, what you do

Girl you mute out all the nonsense, all the toxic
We can talk on any topic and never stop it
I know you got other options, a lotta prospects
But they only know the single, I want the box set
Pushing buttons with your high heels or your high tops
Turning heads and give them all the feels way that you walk
Could be a sign or I
Might be losing my mind

'Cause I hear strings play
Every time you look my way
Don't you know that's what you do?
Feels like ooh
Make my heart beat
Double time when you're on me
Don't you know that's what you do?
What you do, what you do

Girl you sound just like the theme song can turn my dreams on
You the star of the movie, I'm watching reruns
Wanna cut off all my options, put you on top of them
We just stepped outside in public, the cameras popping
Hold on to me right now, I'll protect you
You can ruin my life girl I'll let you
Feel your heart when it's beating, you the one girl and I'm fiending
I hear symphonies when you speaking, it's true

'Cause I hear strings play
Every time you look my way
Don't you know that's what you do?
Feels like ooh
Make my heart beat
Double time when you're on me
Don't you know that's what you do?
What you do, what you do

What you do
