

# Words

MAX

Well words can't seem to fully make a sound  
Run before they leave your mouth  
They tell you ain't good enough  
And hurtful everytime they use your name  
Never something good to say  
And it all comes crashing down you had enough

The storm comes, and the rain goes  
I'm just so over it, over it

Singing Hey  
Every singles word they say to you  
Shouldn't really mean a thing to you, no  
Singing Hey  
Anything they try to poke with you  
You don't gotta stop and listen to  
Nothing more than some words  
Nothing more than just words  
Nothing more than just words

Words  
Start a world war or bring it peace  
It's up to you to choose which one to speak  
Lay your history yeah  
Don't let him break your spirits  
In the words can you hear it?  
Break that mood don't fear it  
And be who you wanna be  
And be who you wanna be

The storm comes, and the rain goes  
I'm just so over it, over it

Singing Hey  
Every singles word they say to you  
Shouldn't really mean a thing to you, no  
Singing Hey  
Anything they try to poke with you  
You don't gotta stop and listen to  
Nothing more than some words  
Nothing more than just words

While they stay behind and you take the lead

Singing Hey  
Every singles word they say to you  
Shouldn't really mean a thing to you, no  
Singing Hey  
Anything they try to poke with you  
You don't gotta stop and listen to  
Nothing more than some words  
Nothing more than some words  
Nothing more than some words
