

Gravity

Max Webster

(M--Mitchell; L--DuBois)

what do i know / i sat under a cloud / i looked up / 'fraid to
look down
i knew i'd cry if i didn't clear / i knew i'd die if i didn't h
ear you say
forget that fear of gravity
you take that dream away from me / i'll have trouble getting th
rough the day
get a little savagery in your life
i'll have trouble tying my shoes
forget that fear of gravity
i'll laugh when it rains and dampens my hair
get a little savagery in your life
in my cloud / i walk close never fearing the edge
never waiting at the bend / never two-faced at a crossroads
never wanting the edge of my cloud / tender is the night--C
forget that fear of gravity gravity gravity
forget that fear of gravity
and i'll sit in the window without a cigarette
get a little savagery in your life

SONG@: Words to Words

(M--Mitchell; L--DuBois)

u r an original creation / celebrate / celebrate
moving me down to earth
face to face
 words to words
it's just so damn easy for me to go
u hold my mind and fate
u r murder
 u r mercy
black

 and
 white
u attract
 u repel
u r thunder
 u r silence
C riding me down to earth
face to face
 words to words
 stealing a gaze for all its worth
 at the roads we traced / the stars we paced
 it was easy with my life on the line
C2 think i'm going to settle down tonight / say u kept me cryi
ng alright
 think i'm going to settle down tonight / cause u did someth
ing
 seemed hazy / almost goddesslike

u r an original creation / celebrate / celebrate--C, C2
