

Kids In Action

Max Webster

Kids in action if your heart's in your city
It doesn't matter how you feel
Or how high you feel you have to get to get by on
If it's a sin we have in good time living
Then I guess were gonna be
Yes I guess were gonna be the best bonfire in hell

We want modern thrills
We want rock n roll that kills
Who we gonna get high over if we can't get high together
We want modern thrills we want rock n roll that kills
Yeah tell me who gonna die over
If we can't die together

We're gonna have no more problems with security were young tough
and together
And we want the world young rough and ready
This ain't no Jack and Jill story
