

## Don't Make No Sense

Maxeen

You don't make no sense  
Your point still eludes me  
It's just arrogance and false publicity  
?????

It's what you're saying  
Just like the rest  
Your kind is so deceiving

????? sleeping with the enemy  
But the room's too dark for me to see

I don't like the way that you've been using me  
I'm disgusted by your sense of sensibility  
There's a left, there's a right,  
You know I'm on defense  
You don't make no sense

???? like eloquence  
???? is there a hidden meaning  
????? your defense  
But is this you that does your thinking  
???? selfish hearts  
That can't help this suffer beating

????? sleeping with the enemy  
But the room's too dark for me to see

I don't like the way that you've been using me  
I'm disgusted by your sense of sensibility  
There's a left, there's a right,  
You know I'm on defense  
You don't make no sense  
You don't make no sense to me, no

????? sleeping with the enemy  
But the room's too dark for me to see  
You've done this before  
Now you've done it to me  
Where is your responsibility

I don't like the way that you've been using me  
I'm disgusted by your sense of sensibility  
There's a left, there's a right,  
You know I'm on defense  
You don't make no sense  
I don't like the way that you've been using me  
I'm disgusted by your sense of sensibility  
There's a left, there's a right,  
You know I'm on defense  
You don't make no sense  
You don't make no sense to me, no  
You don't make no sense to me, no  
You don't make no sense to me  
You don't make no sense
