Let Go

Maxeen

I stopped you for a moment
but decided there was nothing to say
And a chemical reaction
was the science
that withstand in the way
?????
Distracted by the nonsense
you moved forward and I stayed behind

Until now, we'll sit and stare
to find the point to go nowhere
An open mind begins to see
The destruction of ????

Let go, let go, or fall apart
Let go, let go,
Stop building walls around your heart

???? and dance
but the rhythm ??? my ear
No beating ????
I slowly disappear

Until now, we'll hope and pray
as something comes and takes me away
You proved me wrong, you proved me right
There's still no gain to this useless fight

Let go, let go, or fall apart
Let go, let go,
Stop building walls around your heart

No one wants to sit and stare
and watch the ???? go nowhere
You try and make me feel OK
But just stand up in somethings way
Don't you want it, don't you care
While your efforts go nowhere
?????????
A pointless waste of energy

Let go, let go, let go, let go
(My love isn't making me)
Let go, let go, or fall apart
Let go, let go,
Stop building walls around your heart
Let go, let go, let go, let go
Stop building walls around your heart
