

Replace Us

Maxeen

If there is a moment, please reflect for
You have a voice and something you can say
There's a space you fill
and what you do here
determines if you go or if you stay

Don't believe a word that they will say
And don't believe a thing that they could do
It's what you do, it doesn't really matter
There's always someone who can replace you

Replace us, replace us all
Replace us
They ??? see as opened up for you

It's times like these I wish you were a anchor
Too many ships ??? get lost at sea
A thousand tides rise and fall with numbness
To oceans of ???

Don't believe a word that they will say
And don't believe a thing that they could do
It's what you do, it doesn't really matter
There's always someone who can replace you

Replace us, replace us all
Replace us
They ??? see as opened up for you

And you be what they want
???? the point of you
The second you stepped up
They replaced you

???? with the passion and ???
There's something ??? overplayed
I would hope they'd understood it's meaning
The presence of it's value always stay

To have to prove my heart ???????
And every single hour of the day
And if it's just a game with no conviction
Then I suppose that everyone could play

Replace us, replace us all
Replace us
They ??? see as opened up for you
???? take it
Yes, you will take it all

Replace us all, replace us all
Replace us all, replace us all
