

Stay

Maxeen

I would settle to sustain
A trivial but constant state of complacency
But my heart races
to defend absurdities that I spend,
Oh so easily

Stay, I feel this slipping away
And I can't go through this again
Slowly beginning to fall
I hope ??????

Won't you stay with me
Because I always come back down

It's all the same, ??? night and day
?????????
Nothing here to see
I'm cursed with opportunity
Sometimes I feel
we just don't see we're not alone
I feel so alone

Stay, I feel this slipping away
???? here on my own
Slowly beginning to fall
??????????????

Won't you stay with me
Because I always come back down
Won't you, won't you stay
Won't you stay with me
Because I always come back down

So many questions and so much to say
Will I get the answers or will questions remain
??????? Is this the job with no pay
A moment, a lifetime, a year and a day
Let go, let go
We stumble in darkness
??????????
?????????? surprise

I thought you'd be with me
I always come back down
Won't you, won't you stay
Won't you stay with me
Because I always come back down
Yes I always come back down
I come back down

Won't you, won't you stay
Won't you, won't you stay
