

Pretty Little Girl

Maxi Priest

Hey girl how do you do
I wanna talk to you
Seen you down 4th Avenue
I wanna spend some time with you

Pretty little girl, I've been watching you oh baby
Pretty little girl, I've been watching you

Cause you stole a little part of my heart
Yes you stole a little part of my heart

True love is a thing I've never found, never found
True love is a thing I see in you

Feeling inside I just cannot hide oh baby
Feeling inside I just can't push aside

True love is a thing I've never found, never found
True love is a thing I see in you

I see in you oh oh baby
I see in you oh oh ah hey

Pretty little girl, I've been watching you oh baby
Pretty little girl, I've been watching you

oh yeah
Cause I'm in need of a little love and happiness
And I'm in need of someone to hold and caress
It's not once or twice I've felt this way, felt this way
Everytime I see you pass my way oh oh oh

Feeling inside I just cannot hide oh baby
Feeling inside I just can't push aside

Oh yeah
Everyday
Hoping you'll come my way
Hoping for a time to say
Greetings hello what's your name

Looking from an upstairs floor
Wanting you more and more
Feelings I can't explain
Running wild within my brain

Pretty little girl, I've been watching you oh baby
Pretty little girl, I've been watching you

True love is a thing I've never found, never found
True love is a thing I see in you

I see in you, said I see in you baby I see in you oh oh ah
It's true love, true true true true love is a thing I never found
Said I found in you baby I found in you oh oh oh oh
Said I found in you baby I found in you

oh an oh an oh an
