

# We Tomorrow's People

Maxi Priest

Tomorrow's people  
Dreaming of a place, where time has no meaning  
A future paradise, in a world without fears

Let's open up our eyes to the hurt and the sorrows  
Time has come to ease the pain, build a better tomorrow

We tomorrow's people  
We've got to understand  
We tomorrow's people  
Got our future in our hands

So whatcha gonna do with the key to your destiny  
Will you live, let live, let it be

Hold your head up high, a new day is dawning  
We'll keep our dreams alive in a world without tears

Let's open up our eyes to the hurt and the sorrows  
Time has come to ease the pain and build a better tomorrow

We tomorrow's people  
We've got to understand  
We tomorrow's people  
Got our future in our hands

So whatcha gonna do with the key to your destiny  
Will you live, let live, let it be

So much hurting in the world  
Will you live, let live, let it be  
Much to change much to change in the world today

So whatcha gonna do with the key to your destiny  
Will you live, let live, let it be
