

# You're Only Human

Maxi Priest

I think it's time that you and me  
We left this place and went somewhere  
Where we can do  
The things we're thinking of, oh yeah

See I've been so near and yet so far  
Felt high and felt so low  
Been trying to touch the sky  
And find nowhere to go, oh no

Don't walk away  
'Cause I'm not leaving here without you  
Don't walk away  
'Cause I'm not leaving here without you no

You're only human  
Go with your feelings  
Believe it, don't fight it, oh  
You're only human  
Go with your feelings  
Believe it  
Exciting

I've got you here and you've got me  
We're both quite aware of how we feel  
Now don't be scared place your trust in me, oh yeah  
The vibe is yours, the vibe is mine  
Let's take this chance don't waste no time

Don't walk away  
'Cause I'm not leaving here without you  
Don't walk away  
'Cause I'm not leaving here without you no

You're only human  
Go with your feelings  
Believe it, don't fight it, oh  
You're only human  
Go with your feelings  
Believe it  
Exciting

Have you ever been in that position where you wanna need someone  
Crying out loudly where you, want to be heard  
Its feel the fire, taking us higher, touch me baby  
You love is amazin', woah, woah, love is amazing, woah baby

You're only human  
Go with your feelings  
Believe it, don't fight it
