

Roll It Out

Maximillian

Everyday we could be livin' it up
We be riding on a wave, ride-riding away
I wanna let go, throw [?] the thought
You gotta give it all away and then give what ya got
We could be magic how we light up the block
And can you hear us bounce around 'til we pop
Everyday we could be living it up
We be riding on a wave, yeah, right on our way

We, mmh, we could be anything
So free, ye-yeah
Oh, oh, we, we could be anything
So free
Keep wathing our future played out on the screen

Roll it out, out, out
Roll it out, out, out
Roll it out, out, out
Make a scene, ye-yeah

We the ones running the show
No time for rainy days, living life like holidays
Leave all of the sweeter things out on the road
We got that sweet good taste, sweeter, sweeter butter taste (Yeah)

We, we could be anything
So free, ye-yeah
Yeah, yeah, we, we could be anything
So free
Keep wathing our future played out on the screen

Roll it out, out, out
Roll it out, out, out
Roll it out, out, out
Make a scene, ooh

'Cause it feels so real that it can't be just a dream
Roll it out, hey, yeah (Ah)
Yeah, it feels so real that it can't be just a dream
Roll it out, out, out

We, we could be anything
So free, ye-yeah
Oh, oh, we, we could be anything
So free
Keep wathing our future played out on the screen

Ooh
Out, out
Out, out
