

## With You

Maximillian

You got me sleepless for days  
Leave me on read  
And let my heart twist every way  
It's like you want me in pain  
You got the gun  
I got the target on my face  
You know I'd give you all the diamonds  
But still you put me on the silent treatment  
You got me hooked, can't escape  
Tryna work out all your games

Oh I got a feeling in my chest  
And it's giving me anxiety  
I'm tripping in my bed  
Oh all I want is you, so fuck the rest  
Tell me am I losing it  
'Cause I feel kinda good with it  
Good with it

Maybe I should run  
But I feel so good right now  
When I'm with you  
Maybe it's all wrong  
But my heart just plays along  
When I kiss you  
Call me crazy  
But I like the way  
Every second got me saying things  
I shouldn't say  
Maybe I should run  
But I feel so good right now  
When I'm with you

You treat me like I'm a ghost  
Don't even see me  
It's like I'm not even close  
My friends are telling me don't  
But I don't care because I'm  
Foolishly in love  
They try to show me all the red flags  
I'm going blind, I'm going lifeless  
You're playing harder to get  
You got me out my head

Oh I got a feeling in my chest  
And it's giving me anxiety  
I'm tripping in my bed  
Oh all I want is you, so fuck the rest  
Tell me am I losing it  
'Cause I feel kinda good with it  
Good with it

Maybe I should run  
But I feel so good right now  
When I'm with you  
Maybe it's all wrong  
But my heart just plays along

When I kiss you  
Call me crazy  
But I like the way  
Every second got me saying things  
I shouldn't say  
Maybe I should run  
But I feel so good right now  
When I'm with you

Maybe I should run  
Call me crazy  
But I like the way  
Every second got me saying things  
I shouldn't say  
Maybe I should run  
But I feel so good right now  
When I'm with you
