

Armchair View

Maxïmo Park

I was born and then I took my place
The natural order should be rearranged
Punish me don't punish her
Expectations can be quite absurd
And all the common say

She should have seen it as a warning sign
But it's so easy from an armchair view
She should have seen it as a warning sign
But it's so easy from a hindsight view

Hidden words tend to stick in the craw
The privileged few get to settle the score
Listen to her don't listen to me
A past protected by official decree
And all the common say

She should have seen it as a warning sign
But it's so easy from an armchair view
She should have seen it as a warning sign
But it's so easy from a hindsight view
Who am I to define what I can't see?
Who am I to define what I can't see?
