

# I Don't Know What I'm Doing

Maximo Park

I get so scared and I feel such guilt  
Like when you first drew blood  
Although the situation is improving  
But when your mood is good it gives us all a lift  
Although your secret language is confusing

And when I work it all out I'll tell you  
I know you know I don't know what I'm doing  
Did I pass it on - all the anger and doubt?  
Your behaviour leads to one conclusion  
When I work it all out I'll tell you

My tastes are still the same  
It's just my habits that've changed  
The nightly ritual is new  
But feels as old as time  
I guide my hands along  
The contours of your mother's back  
But there are knots I can't erase  
I end up losing track  
You're no accessory  
You are a part of me  
It's my job to conceal  
The difficulty of the moment

And when I work it all out I'll tell you  
I know you know I don't know what I'm doing  
Did I pass it on - all the anger and doubt?  
Your behaviour leads to one conclusion

I helped make you  
And I've condemned you  
To see my frailties  
The fate of a family  
But I helped make you  
And I'll placate you  
I helped make you  
And I'll placate you...

And when I work it all out I'll tell you  
I know you know I don't know what I'm doing  
Did I pass it on - all the anger and doubt?  
Your behaviour leads to one conclusion

When I work it all out I'll tell you  
I know you know I don't know what I'm doing  
Did I pass it on - all the anger and doubt?  
I know you know I don't know what I'm doing
