

Respond to the Feeling

Maxïmo Park

I'm drowning in the fate, time's been torturing the [?]
A nation holds its breath that the private's on parade
You could sleep walking to the night or you can focus on forever
You could make the short term right, but you better focus on the forever

You gotta respond to the feeling if you can feel it too
You gotta respond to the feeling if you can feel it too

The things you see are not what I see
That's a focus on eye putting on a [?]
You tell me that we're in this together
But you're as changeable as the weather

The things you see are not what I see
That's a focus on you putting on on me

You've gotta respond to the feeling if you can feel it too
You've gotta respond to the feeling if you can feel it too

What's left for you
If everybody is turning right?
What's left for me
If everybody is turning right?

You gotta take a risk before that feeling goes
You gotta take a risk before that feeling flies
You gotta take a risk before that feeling goes
You gotta take a risk before that feeling flies

Oooh, [?] feelings
Oooh, I don't want this feeling to die

You've gotta respond to the feeling if you can feel it too
You've gotta respond to the feeling if you can feel it ringing true
You've gotta respond to the feeling if you can feel it too
You've gotta respond to the feeling if you can feel it too
