

Throw'd As It Gets

Maxo Kream

Lovers come and then lovers go
That's what folks will say
Don't they know?
They're not there when you love me
Hold me and say you care
And what we have is much more than they could see

What do we have here
Everything different from last year
I was just down in the dumps
Now all the funds be coming in lumps
I put the trunk in the front
I'm pullin off fast
I'm doing my stunts
I gotta whole lotta runs
I stuff it in blunts
Then go to the sun
On top of the business
I got a staff here
And God is my witness
That's why the path clear
I met the criteria
Racing down 45
Bumpin Nasir
Had to start the bottom
Now everything I do
Is top tier
Don't get caught in the crosshairs
Moving without fear
That's dedication and
I'm am outta spacing
I'm talking bout lightyears
Times got tough
And I wish I could say
That I did it without tears
Jumped in the water
When nobody thought I
Could it without peers... (Shit!)
And That's So outstanding
One time for Shawn Barron
Two times for my parents
Three times for my lady
Every time I get a check
I'm sharing
Like here thanks for caring
Had to make that apparent

I ain't breaking all the rules for nothing
Yeah we taking risk
Sticking to the script
And getting paid off that shit
Pull up in new whip
You know it came full equipped
With the suicide doors
This as throw'd as it get
Oooou shit!
