

Four cigs in my mouth but
You know that I been tryna quit, and I
Can't take it, can't back down
I never been good at missing ya

Suffer in your head 'cause you know how to twist it
Caught up in the moment 'cause I kinda missed it
Oh oh, oh oh, oh oh oh

Sometimes I need reminding of
How much you really fucked me up
Once in a blue moon I might just come undone
I said, once in a blue moon I might just dip my tongue

Give me that pass, get me that mad
Give me that blood sweat tears right back
Wanna run it off track, if you say it's bad
Is it real real bad if you like it like that
If you like it like that, if you like it like that
Hate it how I love the way you keep on coming back
Is it really that bad if you like it like that

Am I your backup, yeah? Am I your second choice?
Am I the reason you're coming back for more?
If so, get the fuck out, get the fuck out
If so, get the fuck out, out of my mouth (More)
Yeah, get the fuck out

Sometimes I need reminding of
How much you really fucked me up
Once in a blue moon I might just come undone
I said, once in a blue moon I might just dip my tongue

Give me that pass, get me that mad
Give me that blood sweat tears right back
Wanna run it off track, if you say it's bad
Is it real real bad if you like it like that
If you like it like that, if you like it like that
Hate it how I love the way you keep on coming back
Is it really that bad if you like it like that

I might just dip my tongue

Give me that pass, get me that mad
Give me that blood sweat tears right back
Wanna run it off track, if you say it's bad
Is it real real bad if you like it like that
If you like it like that, if you like it like that
If you like it like that, if you like it like that
If you like it like that, if you like it like that

Put it off, pull it back, keep your distance
'Cause I just want you out of my system
Taking words from my mouth just to twist 'em
Bad, why you loved me like that, that
Once you're gone, then you're gone, that's your business
Hanging on, number one on your wishlist

Once I'm gone, let me back, 'cause you missed this bad
'Cause you love me like that, that
