

## Say Nothing (MAY)

**MAY-A**

As far as summer goes I'm not even close  
To wearing you like clothes when nobody's home  
Now I don't see your ghost everywhere I go  
And as far as I know you need me the most

Now I'm not on the inside anymore  
You talk but at the same time say nothing  
Now all I see is daylight when you're gone  
If you don't want to say goodbye

Say nothing  
Say nothing  
No running back, running back  
Say nothing  
Say nothing  
If you don't want to say goodbye

Say nothing  
Say nothing  
It isn't so bad, you should know that  
Say nothing  
Say nothing  
No running back, running back

You're lying through your teeth when I turn my head  
As far as subtleties well it's not my best  
It hurts to love and leave I don't love you less  
I saw it on your sleeves you made such a mess

Now I'm not on the inside anymore  
You talk but at the same time say nothing  
Now all I see is daylight when you're gone  
If you don't want to say goodbye, say goodbye

Say nothing  
Say nothing  
No running back, running back  
Say nothing  
Say nothing  
If you don't want to say goodbye

Say nothing  
Say nothing  
It isn't so bad, you should know that  
Say nothing  
Say nothing  
No running back, running back

It's not harder than you think  
It's not like we ever burned so bright  
I don't want to hear a thing  
So if you don't want to say goodbye

Say nothing  
Say nothing  
No running back, running back  
Say nothing

Say nothing

If you don't want to say goodbye

Say nothing

Say nothing

It isn't so bad, you should know that

Say nothing

Say nothing

No running back, running back
